Honorable Fob James
Governor of Alabama
State Capitol
Montgomery, Alabama 36130

Dear Governor James:

In accordance with the provisions of Section 27-2-9, Code of Alabama 1975, the Annual Report of the Commissioner of Insurance, covering the operations of all insurance companies authorized to transact business in Alabama in 1978, is transmitted herewith.

The insurance industry in Alabama continued to grow during 1978 as the number of licensed companies increased by 32 to 1150 at year's end. Taxes, licenses, fees and miscellaneous payments made to the Department increased from $49,251,645 to $55,186,027. Premiums collected by property and casualty companies increased by 9.8% to $1,017,345,011, and the direct premium and annuity consideration for all life insurance companies increased by 4.4% to $659,910,000.

The total amount of premiums paid to licensed insurers in 1978 for all types of insurance by residents of Alabama was slightly in excess of 1.6 billion dollars.

The amounts used in the financial section were taken from the Annual Statements filed by the various companies, without audit or verification.

Sincerely yours,

H. H. SUMRALL, JR.
Commissioner of Insurance

STATE OF ALABAMA
DEPARTMENT OF INSURANCE

FIRE MARSHAL'S OFFICE

MONTGOMERY, ALABAMA 36130

STATE FIRE MARSHAL
ROY L. THORNELL

Acting ALBERT J. (JACK) WINFIELD
COMMISSIONER

AREA CODE 205 832 5844

PLANNING • SAFETY EDUCATION • PREVENTION • INSPECTION • INVESTIGATION • PROTECTION • REGULATION • LICENSING

April 11, 1979

Honorable Albert J. (Jack) Winfield
Acting Commissioner
Department of Insurance
Montgomery, AL 36130

Re: Annual Report of the State Fire Marshals Office for the year of 1978.

Dear Sir:

In accordance to Chapter 19, Section 36-19-26, 1975, Code of Alabama, this report is respectfully submitted for your information and approval.

During 1978 there were one-hundred ninety-four (194) fire fatalities in the state. This is a reduction of ten (10) fire fatalities over 1977. The fact that fifty-five (55) of the one-hundred ninety-four (194) fatalities were five (5) of age or under, which represents an increase of twenty-two (22) in this age group, causes us much concern.

In 1978 action was taken against fifty-eight (58) defendants in cases which were carried over from 1977. Thirty-eight (38) adult defendants were convicted for the crime of arson and kindred offenses. Nine (9) juveniles were turned over to juvenile authorities after it was determined that they were involved in incendiary fires. Five (5) cases were nol-prossed, four (4) defendants were declared not guilty. One case was no-billed by the Grand Jury, one defendant died.

In 1978, action was initiated against one-hundred forty-five (145) defendants for the crime of arson and kindred offenses. Twenty-seven defendants were convicted, eighteen (18) juveniles were turned over to juvenile authorities after it was determined that they were guilty of arson. Cases against eighty-six (86) defendants are pending action of the Grand Jury or court action. Cases against fourteen (14) defendants were nol-prossed, found not guilty or otherwise disposed of by the court.

During the year 1978, this office cooperated with Fire Departments, Sheriffs Department, State Department of Pensions and Security, State Health Department, Mental Health Divisions, State Board of Corrections, Insurance Companies and Adjusters in conducting investigations and inspections throughout the state. This office has received excellent cooperation from the above agencies.

This office received requests to conduct six-hundred forty-six (646) investigations of fire losses during 1978. Three-hundred and nine (309) of these fires occurred in dwelling houses, this reflected a decrease of twenty-seven (27) dwelling fires over the year 1977. Eighty-four (84) mobile home fires were investigated which represent a increase of two (2) mobile homes fires over 1977. The increase of mobile home fires has been consistent for several years and we have noticed a rise in fatalities in mobile home fires and especially multiple fatalities. The multiple fatalities are occurring mostly in used mobile homes which do not have smoke detectors.

This office has presented to the State Legislature the past two (2) years the proposed bill for inspection of used mobile homes. We have been unsuccessful in securing a state law which will permit representatives of this office to check all used mobile homes prior to re-sale in this state. These inspections would encompass plumbing, heating, wiring and gas piping and the installation of smoke detectors to assure that used mobile homes are safe to be occupied by citizens of this state. I strongly urge that a bill be presented to the next session of the legislature covering the above requirements for used mobile homes.

I have recently been furnished a copy of state law of the state of Florida which requires a inspection of all used mobile homes prior to their sale in that state. I have been advised that states surrounding the state of Alabama have some legislation concerning used mobile homes. This has not been confirmed. It stands to reason, that as in the past, used mobile homes in critical need of repair or other expenditures prior to being sold in states having inspection laws will eventually be brought into the state of Alabama and sold to consumers of this state. This has happened in the past and there is no reason why it should not continue to happen in the future.

The State Fire Marshal's Office has been approved by the U. S. Department of Housing and Urban Development to respond to complaints from consumers who have purchased mobile homes constructed under the Federal Mobile Home Construction and Safety Act. For this service we receive $9.00 for each mobile home manufactured under federal requirements, and first located in the state of Alabama. During the year 1978 this office received $79,308.00 for our participation in the federal program.

This office received conditional approval to participate in the above federal mobile home program on August 27, 1976. This conditional approval was granted for a maximum of three (3) years. We were advised that it would be necessary to meet certain requirements in order to receive complete approval to continue to participate in this program. These requirements incorporated the passage of legislation. A bill was prepared and has been presented to the legislature for the past two (2) years. We have failed to secure passage of this legislation.

I am of the opinion that our conditional approval will be terminated on August 27, 1979 and we will lose at least $79,000.00 which we have been receiving in this division. I strongly urge that a bill be re-presented to the next legislature and all efforts be expended in securing the passage of this bill.

Numbers of states have passed legislation which will protect insurance companies against civil liabilities for passing along to the State Fire Marshal information contained in their files which indicate a policy holder may be guilty of arson or a strong suspicion that he may be guilty of arson. Insurance companies, agents and sometimes adjusters have been reluctant to include information contained in their files when making a request for a investigation due to fears of civil reprisal. I would urge that this matter be looked into so that we may have a free exchange of information between this office and insurance companies, agents and adjusters.

In January of 1978, this office was furnished a list of day care centers totalling seven-hundred fifty-seven (757) which were licensed or had some approval to operate in the state of Alabama. All child care centers should be inspected once each year by fire inspectors knowledgeable of fire codes and regulations. It is impossible for this office, with the number of personnel, to inspect these facilities. There is no doubt in my mind many children being housed in child care centers in this state which are dangerous and a potential hazard to the life of these children. Our experiences has been that this responsibility can not be delegated to local fire departments throughout the state, with some exceptions, due to the fact that fire department inspectors are not adequately trained to conduct these critical inspections.

During the year 1978, we inspected four-hundred forty-eight (448) child care centers throughout the state. We approved one-hundred fifty-five (155) of these centers, some requiring two (2) or three (3) trips prior to approval being granted. We disapproved and made recommendations on two-hundred ninety-three (293) centers. We have found and are continuing to find child care centers which have been approved by other agencies which are so hazardous that they have to be closed for a period of time until the center is brought into compliance with fire codes and regulations. Some thought should be given to necessary inspection personnel for this office so that we are able to respond to the requirements of state law and regulations prior to some serious fire occurring which could cause multiple fatalities among children. I do not think that it would be surprising to anyone that a number of public school plant facilities are in the same condition as these child care centers. It may be noted also that child care centers in some public schools are being operated with very little or no concern toward meeting state fire codes and regulations.

There is a estimated four-hundred forty (440) city jails, and sixty-nine (69) county jails in the state. During the year 1978 this office conducted original inspections of eight (8) city jails, and seventy-eight (78) re-inspections for a total of eighty-six (86). Nineteen (19) of these jails were approved and one jail was closed, due to inability to comply with fire codes and regulations. This office conducted four (4) original inspections and sixty-three (63) re-inspections of county jails for a total of sixty-seven (67) inspections. Two (2) of these jails were approved, recommendations were made in sixty-five (65) of these inspections.

Our personnel conducted inspections of five (5) major correctional facilities and one re-inspection. None of these facilities were approved and recommendations were made at the conclusion of each inspection. Eleven (11) work release centers were inspected and recommendations issued at the conclusion of the inspection. Eight (8) youth facilities were inspected and recommendations issued at the conclusion of the inspection. Inspection reports of correctional facilities throughout the state reflect some improvement but considerable corrections will be necessary prior to approval of any of these facilities by this office.

Inspections of major facilities are pointed out above but this office has conducted nine-hundred seventy-eight (978) inspections. In addition to consumer complaints of mobile homes and inspections of sprinkler installations which are set out separately. This reflects a increase of one-hundred thirty-seven (137) over 1977.

This office has continued to review plans and specifications in regard to the installation of sprinkler systems and building plans. During the year eighty-one (81) sets of sprinkler blueprints were reviewed which consisted of six-hundred forty-two (642) sheets, seventy-one (71) sets were approved and ten (10) were returned for correction. Sixteen (16) sprinkler installations were inspected as a follow-up to compliance with the review approval. Thirteen (13) installations were approved and three (3) were disapproved for corrections. In addition to the above, six (6) sets of building plans were reviewed, approval was granted for five (5) sets of plans and one was sent back for corrections.

The State Fire Marshal is aware of the critical need for inspectors to conduct continuing inspections of installations such as bulk-storage of flammable and combustible liquids. Also to inspect service stations throughout the state. We are aware of many violations of state fire codes and regulations concerning the storage and handling of flammable and combustible liquids and service stations. Many of the illegal above ground service station installations are leaking and in various states of deterioration which could cause loss of life or hazard to fire-fighting personnel responding to fires at these installations.

I would like to take this opportunity again to point to the vulnerable position of the Commissioner of Insurance and the State Fire Marshal. There are duties and responsibilities placed upon the State Fire Marshal by state law requiring action where it is impossible to respond due to the lack of personnel. Several court rulings which stress the responsibility of regulatory organizations to respond to requirements of state law. In the event these facilities are not inspected and action to correct fire codes and violations required, according to rulings of federal courts, the State Fire Marshal can be cited for neglect and subject to a misdemeanor. Federal Judge Frank Johnson stated in substance that the State Fire Marshal by state law has the authority to enter any building or premises in the state at any reasonable hour for the purpose of inspecting for violations of the fire code. The Fire Marshal by virtue of this authority has the duty and responsibility of requiring these inspections to be conducted and remedial action to correct fire hazards. Failure of the Fire Marshal to inspect the buildings and facilities makes the Fire Marshal guilty of a misdemeanor. Further that the

Fire Marshal also has the authority to promulgate rules and regulations in the absence of state law to cause these corrections to be made. I am of the opinion that this statement is in error in part due to the fact that the state law provides that the Fire Marshal subject to the approval of the Commissioner of Insurance shall promulgate rules and regulations.

This office has many responsibilities which requires considerable knowledge of building codes and fire codes and regulations. We are constantly asked to review plans and specifications which requires in many instances technical knowledge since we deal with people who have technical knowledge. This office does not have and to my knowledge never has had a single technical review person to check plans to determine whether or not these plans are in compliance with state laws and regulations. The State Fire Marshal by state law is given the responsibility concerning all building construction. In many instances in rural areas other than requirements which are required by insurance underwriters, we are the only state agency which requires a building to comply with any construction code. This office is in need of technical personnel such as Building Engineer II to conduct plan review and train personnel in code requirements.

The workload of this office has increased yearly for this reason we have become involved in new areas of enforcement. Most Deputy State Fire Marshals are not properly trained in the enforcement of fire codes and regulations. It has been taken for granted that the personnel could function in these areas. This division is in critical need of re-organization, in-depth training of personnel so that they may be qualified to carry out their responsibilities in conducting inspections and investigations.

To cover all the activities of this division in letter form would be almost impossible, I am attaching the activities of this division for the year 1978.

Sincerely,

Roy R. Thornell

Roy R. Thornell
State Fire Marshal

This office inspected and re-inspected 2 private schools, approved none. This makes a total of 2.

BARRIER FREE DESIGN STANDARD

During the year 1978, this office has reviewed 191 sets of building plans to determine whether or not they comply with the Barrier Free Design Standard. All of these were approved.

The State Fire Marshal is charged with the responsibility of enforcing the Barrier Free Design Standard and it will be necessary to inspect each of these buildings when the construction is completed to determine whether or not these buildings are in compliance with the Physically Handicapped Law.
